# OUTRAGED!

Against bosses that refuse to give us a decent wage!  
Against landlords that take away a social right in order  
to make money!

Against governments that see migrants as frauds!

Another pandemic year during which we suffered the  
devastation of the capitalist system. Another year  
during which the economic interests of the business  
class crushed the well being of the working class.

That's why the Industrial Workers of the World -  
Montréal still demand: a significant minimum wage  
raise to 22\$/hour and better working conditions, rent  
control measures and social housing, and a status for  
all!

SITT-IWW invites you to a picnic and demonstration on  
Sunday May 1st 2022 at 12:30 PM at Place Emmett-  
Johns, behind Papineau station. Against the employing  
class, we stand together. May Day is the opportunity  
to meet, share our struggles and rebel on the way to  
building a better world.
